THEMSEN HEALTH

Meget mere end blot en handske

Themsen Health ApS er dansk B2B-importør og distributør af nitrilhandsker med lager i København. Vi har været officiel skandinavisk distributør for Supermax siden januar 2020 – først gennem vores tidligere selskab, og siden 2022 i Themsen Health ApS, som viderefører de samme aktiviteter, det samme team og det samme producentsamarbejde.

Supermax er en af verdens største producenter af nitrilhandsker med produktion i Malaysia. Vi køber direkte hos producenten uden fordyrende mellemlid. Det giver konkurrencedygtige priser – og vigtigst af alt forsyningssikkerhed: vi har altid 300+ paller på lager i København, og palleordrer på op til 10 paller bekræftes skriftligt inden for 24 timer og leveres inden for 2–3 hverdage.

Vores sortiment omfatter nitril-, latex- og vinylhandsker i mange farver og tykkelser samt arbejds- og kemikaliehandsker. Alle undersøgelseshandsker er CE-mærkede og opfylder EN ISO 374-1, EN ISO 374-5 (virus) og EN 455. Nitrilhandskerne er pudde- og latexfri og leveres med AQL 1,5. Fødevaregodkendte varianter (EU 10/2011) og acceleratorfri handsker kan leveres – kontakt os for specifikation og testrapporter.

Hos Themsen Health kan din virksomhed få en individuelt tilpasset rammeaftale med fastlåst pris og volumen i 6–12 måneder og med præcis de typer, størrelser og mængder I har brug for. Vi leverer med faste mellemrum, så I aldrig løber tør. Vi hjælper også grossister og større virksomheder med containerimport og private label med eget logo.

Vores service og leveringssikkerhed bygger på:

- Seriøs rådgivning om det rette produkt
- Dokumentation – CE-erklæringer, testrapporter og datablade kan rekvireres før køb
- Forsyningssikkerhed fra eget lager i København
- Konkurrencedygtige priser direkte fra producenten

Vi sælger udelukkende til virksomheder og offentlige institutioner. Bestil på themsenhealth.dk/produkter (min. 40 æsker, fragt inkl., priser ekskl. moms) eller kontakt os for tilbud. **Gratis vareprøver:** info@themsenhealth.dk eller +45 69 16 76 13.
